

Disclaimer

The members of the MMCD Association have taken care in preparing these documents, but neither the members nor the MMCD Association accepts any liability for any loss or damage which may be suffered by any person or corporation as a result of the use of the documents. These documents are made available without representation by the MMCD Association or its members as to the appropriateness of their use in any particular situation and issued on the strict understanding that each user accepts full responsibility for their use.

Supplementary Specification Disclaimer

This set of Supplementary Specifications is provided as the MMCD method of continual and collective improvement of the Document Set. These changes have been reviewed by the members of the MMCD for their applicability and relevance to the Documents, Specifications, and/or Standard Drawings and have been deemed important to the Documents to correct either errors or omissions since the release of the Documents.

Supplementary Specification Usage

Usage of Supplementary Specifications must be explicitly stated in order to be applicable - there is no inclusionary implication simply by their release by the MMCD. Users of the MMCD are encouraged to review each Supplementary Specification for applicability in their contract environment and apply necessary processes to incorporate them into their Tender preparation activities.

In order for a Supplementary Specification to be applicable for a Tender, it must be identified explicitly in the Schedule of Contract Documents – Schedule 1 of the Form of Agreement.

Supplementary Numbering Protocol

While the Supplementary Specifications, General Conditions, and Drawings are released as a set, this is done more out of convenience and to reduce administrative overhead. As such, each individual Supplementary item (specification, General Condition, or Drawing) included in this document is uniquely identified to permit users the opportunity to selectively include individual Supplementary items without including this Supplementary document in its entirety.

If, following requisite review processes, all items in this document are applicable to the user's Tender and Contract process, it is possible to include all items by the collection identifier; i.e. "MMCD Supplemental Update 2010-05-18" would include all items in this document.

If, however, only one of the items was determined to be applicable to the user's Tender and Contract process, a particular item (or group of items) can be included by the individual item reference; i.e. "**GC 1.39.1S - 2010-011 (2010-05-18)**" would represent the change to GC 1.39.1 included in this document.
